

# Drive social management

We continue with our goals of generating opportunities for people and development for communities. Our goal achieved operations in **100%** of the **10 prioritized territories** with investment in projects that contributed to the reduction of vulnerabilities.

Now, we will boost education, investing in raising the **level of education** of many of our professionals through the Pilar Program, and we will contribute to improving the quality of basic education in communities close to our operations. After all, knowledge transforms lives.

**By 2030**

We will raise the level of education to

**1000 people**

in the Pilar Program with conversion of 50% in approval in ENCCEJA.

Achieve

**average 7.0 in the IDEB**

in the early years of elementary school, impacting 10 territories of operation.
